

Portfolio 1: Expressions

Program Title: Food Order System

Description:

This program computes the total amount of food orders and checks if the customer qualifies for free delivery.

Concepts Used:

- Arithmetic Expressions
- Logical Expressions
- Variables
- Input and Output

Created by: Tresha Mae G. Madrid

```
In [2]: # ===== FOOD ORDER SYSTEM =====

print("=====")
print("      FOOD ORDER SYSTEM      ")
print("=====")
```

```
=====
      FOOD ORDER SYSTEM
=====
```

```
In [3]: # ===== MENU PRICES =====

burger_price = 75
fries_price = 50
drinks_price = 30

print("\nMENU")
print("Burger - ₱", burger_price)
print("Fries - ₱", fries_price)
print("Drinks - ₱", drinks_price)
```

```
MENU
Burger - ₱ 75
Fries - ₱ 50
Drinks - ₱ 30
```

```
In [4]: # ===== INPUT SECTION =====

customer_name = input("\nEnter customer name: ")

burger_qty = int(input("Enter quantity of Burger: "))
fries_qty = int(input("Enter quantity of Fries: "))
drinks_qty = int(input("Enter quantity of Drinks: "))
```

```
In [15]: # ===== PROCESS SECTION =====

# Arithmetic Expressions
burger_total = burger_price * burger_qty
fries_total = fries_price * fries_qty
drinks_total = drinks_price * drinks_qty

# Compute subtotal
subtotal = burger_total + fries_total + drinks_total

# Compute discount
discount = subtotal * 0.10

# Compute total payment
total_payment = subtotal

# Logical Expression
free_delivery = total_payment >= 200 and total_payment <= 1000
```

```
In [13]: # ===== OUTPUT SECTION =====

print("\n=====")
print("          ORDER RECEIPT          ")
print("=====")

print("Customer Name:", customer_name)

print("\nORDER SUMMARY")
print("Burger Total: ₱", burger_total)
print("Fries Total : ₱", fries_total)
print("Drinks Total: ₱", drinks_total)

print("\nSubtotal: ₱", subtotal)

print("Total Payment: ₱", total_payment)

# Free Delivery Condition
if free_delivery:
    print("Free Delivery: YES")
else:
    print("Free Delivery: NO")

print("=====")
print("          THANK YOU FOR ORDERING!")
print("=====")
```

```
=====
                        ORDER RECEIPT
=====
Customer Name: Mateo Madrid

ORDER SUMMARY
Burger Total: ₪ 225
Fries Total : ₪ 150
Drinks Total: ₪ 90

Subtotal: ₪ 465
Total Payment: ₪ 418.5
Free Delivery: YES
=====
                        THANK YOU FOR ORDERING!
